i. Conceptual foundations

- Concepts refer to factual things and events
- Concepts name categories such as DV
- DV distinguished by characteristic properties
- Factual events can be observed by indicators
- No perfect data: Be aware of errors!

ii. National Victimization Surveys

- Theory: What is *violence / domestic*?
- Other questions: reporting & services
- Event – Experience – Expression
- Sampling
- Comparability
- Times series

iii. Crimes reported to the police

- Known vs. not known by the police
- Crimes in Criminal Code not violence
- Errors in entries
- Structured information
- Seriousness and reoccurrence
- Merging data from different registers

IV. Conclusions

- Data sources complement each other
- Data, but for what purpose?
- Theories and purposes point to data
- Focus on relevant data and properties
- Check errors and make corrections
